

All across our great Country, people are angry, confused and looking for leaders that are willing to stand up to the insanity of the Musk/Trump administration. No one voted for Elon Musk!

It is our turn to stand up in Western North Carolina.

It is our turn to stand against DOGE and their asinine personnel cuts across vital government agencies. It's our turn to fight for Social, Security, Medicaid and Medicare. It's our turn to fight for health care and life saving medical research. It's our turn to fight for Veterans. It's our turn to fight against the largest tax increase in US history - yes tariffs are a tax!

It's our turn to stand up in NC District 11 for our society's most vulnerable citizens; the underprivileged, the elderly, the disabled, the children. It's our turn to protect our children's future.

To make our voices heard, we need to elect representatives that represent us and our mountain values.

We need to Fire Chuck Edwards and elect Democratic State Representatives throughout Western North Carolina.

I'm not delusional, this will not be an easy task. We'll need to work hard, we'll need to work smart, and we'll need to work together to accomplish these difficult goals.

Specifically for District 11, we need to help turn people's Anger into Action. That action includes formulating a strategic plan specifically for District 11. The strategic plan should include GOTV ideas for every County.

It is my sincere belief that District 11 can and should be used to supplement and maximize County electoral efforts. District 11 should be a support system for every County in the District.

Each County has its own unique challenges. However, it is the duty of District 11 to help each and every County maximize their Democratic vote. At the District, we need to listen to the Democratic leaders in each County and try to understand the challenges they face. By working together, we can help each other overcome these challenges.

If elected as NC District 11 Chair, I will strive to maximize cooperation and communication between Counties, support every County's electoral efforts, and help district 11 elect Democratic representatives throughout Western North Carolina.
