

## Perry Dror, Candidate for NC 11 2nd Vice Chair

I am currently honored to serve as the NC 11 2nd Vice Chair. Since elected to that post, I worked to serve the district by channeling training opportunities to my counterparts in the counties. I also strive to be of help to our District Leadership, e.g., in the past year, I have regularly filled in for our outgoing Chair, Beth Jones, at meetings of the two SECs (State Executive Committee and State Executive Council). Recently I was very gratified to hear from our State Chair, Anderson Clayton, "Thank you for standing in for Beth Jones at our Executive Council meetings. You **always** bring common sense to the room."

The **Mission** of NC 11 Democrats is, "**To provide support and resources that enable and empower our counties to meet their goals and elect Democrats.**" Our **Vision** in NC 11, as found on our website, states.

As Democrats, we envision a community where all people are safe, secure, and valued; a community where all people will have living wages, protection of individual liberties, equal rights, strong public education, affordable quality of healthcare, fair elections and clean air and water.

I subscribe to both the Mission and the Vision. My motivation to run for reelection is twofold. Firstly, with four other officers stepping down, and our 1st Vice Chair (who is running for District Chair) having just begun to serve in March, I am hopeful that I can provide some continuity for our district. Secondly, I very much want to continue to contribute to our district, supporting our County Boards in achieving their training goals, and by extension aid the NCDP in meeting its statewide goals.

We are living in fraught times where all aspects of the above NC 11 Vision are at risk. Some from recent natural disasters and climate change, some from decisions of the very conservative Supreme Court, and mostly from the Trump administration that is sowing chaos, breaking all norms, and working along with "Co-President Musk," and with the architects of Project 2025, to destroy our Constitution and democracy itself.

My goal as 2nd Vice Chair for District 11 is that we will be as well trained as possible, so that we will be confident and prepared to gather the strength and courage to oppose this dangerous and incompetent MAGA administration.

I hope to have your votes for NC 11 2nd Vice Chair, and your support in meeting our goals, if I am reelected.
